EXPECTED IMPACTS

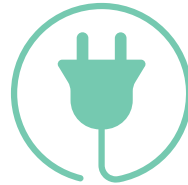

Eco-friendly
and sustainable
transportation

The rise of
micromobility

A multi-
beneficial
vehicle

LIFE2M is dedicated to implementing cutting-edge technologies and solutions to overcome the challenges that hinder the spread of micromobility as the primary mode of transportation in urban and peri-urban settings.

CHALLENGES

Lowering
the costs

Prolong the
operational
life

Interchangeable
or rechargeable
batteries

Extend
battery
life

The goal is to promote the adoption of micromobility and minimize its environmental impact through the use of creative solutions throughout the entire lifecycle of microvehicles
